Futures trading involves substantial risk and is not suitable for all investors

Introduction

- Exit Points is a day trading system, designed to provide the trader with precise entries, stops, and objectives for each trade.
- Each morning, an email detailing the trade recommendations is sent to all clients and their brokers to enable them to easily enter their orders. At the end of each trading session, a recap of the day session results is sent to each client and their broker.

Features

Futures trading involves substantial risk and is not suitable for all investors

Custom Market Groups

- Choose from a diverse basket of commodity futures markets, including: Grains, Livestock, Metals, and Softs
- We will work with you to develop a custom market group to trade based on your risk tolerance and goals

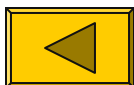

Futures trading involves substantial risk and is not suitable for all investors

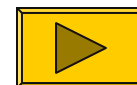

Signals Delivered Daily

- Get trading signals delivered via email before the market opens.
- At the end of each trading day you will also receive a recap of all trading activity and signals.

Futures trading involves substantial risk and is not suitable for all investors

No Overnight Trades

- All Exit Points trades are closed out each trading day, thus eliminating overnight market risk exposure.
- No overnight trades also reduces the amount of capital need for margin purposes.

Futures trading involves substantial risk and is not suitable for all investors

Affordable

- To get access to the Exit Points signals, daily updates, and recaps, a \$150 per month fee is all that is required. You can cancel at any time and we can even arrange for the fee to be automatically taken from your brokerage account
